✉ dlsrbgg33@kaist.ac.kr

I am a Master candidate in Robotics and Computer Vision Lab at Korea Advanced Institute of Science and Technology (KAIST) under the supervision of Prof. In So Kweon since 2019. I will continue to proceed as a Ph.D. candidate from Feb 2021.

Research Interests

My research interests currently lie in computer vision. Specifically, I pursue the goal to build domain adaptive recognition in computer vision, which handles data hungry problem in deep learning. Followings are my main research topics.

- Image Translation
- Domain Adaptation (Image, Video)
- Self-supervised Learning
